
College Explorer Plus 1992

To meet the needs of more than 400,000 foreign students who apply each year to U.S. institutions of higher education, *College Explorer Plus 1992* incorporates the Foreign Student Information Clearinghouse developed by College Board's Office of International Education. The program provides current facts on virtually all accredited U.S. institutions of higher education.

This multipurpose program lets users search the undergraduate data base of nearly 2,800 two-and four-year colleges using combinations of more than 800 options, including location, freshman-class profile, majors, tuition, financial aid availability, Advanced Placement policies, admissions rate, intercollegiate and intramural sports, student activities, application dates, and more. The program also helps users find facts on foreign enrollment size, minimum TOEFL scores, financial aid to foreign students, and many others.

For more information write to Department S21, College Board Publications, Box 886, New York, NY 10101-0886, or call 212-713-8165.
