Fluency Squares for Business and Technology

by Phillip L. Knowles
and Ruth A. Sasaki

Beginning, Intermediate, Advanced

Professional people today have to discuss job descriptions, company descriptions, market shares, productivity and energy-efficiency in English. They have to understand the concepts of cause, state vs. event, proportion, rate of change, numbers and operations, classification, and sequence.

Fluency Squares for Business and Technology offers professionals in those fields the opportunity to develop their listening and speaking skills by discussing concrete, realistic situations, problems, and economic changes. A special section called **Quantitative English** deals with numerical relations, graphs, and rates of change. Reading and writing activities form an integral part of the book. Regular tests and a complete answer key help make the book easy to use.

REACT INTERACT Situations for Communication

by Donald R.H. Byrd
and Isis Clemente-Cabetas

This text is composed of twenty-two situations to stimulate real communication and to expand vocabulary and grammar. React Interact develops the communicative functions of: giving information or advice; persuading others; debating; agreeing/disagreeing; reaching a consensus; solving a problem; expressing preferences, probabilities, necessities, opinions, reasons, and feelings. Each lesson contains questions for oral interaction, exercises for written reaction, and a vocabulary list with definitions. React Interact is intended for both native and non-native adult speakers of English at the intermediate to advanced levels.
