

## "Language Master" On CCH Campus

The new Bell and Howell language Master will make its first appearance on The Church College campus during fall semester. Six units have been ordered for use in the English Language Institute, Modern Language Department, and the Speech Department. Extensive use is planned for remedial work in the intensive program of the ELI. The Winter 1967 issue of the TESL Reporter will contain an evaluation of the successes of the machines in teaching English as a second language.
