

Availability of Topics in CULTURE LEARNING

Volume 2 of *Topics in Culture Learning* is available at no charge from the Culture Learning Institute at the East-West Center. The volume contains 12 articles related to the Institute's four areas of research interest, "Cultures in Contact", "Languages in Culture", "Cultural Identity" and "Thought and Expression in Culture Learning". The articles also examine one or more of these four themes which transcend the four research areas: Learning one's own culture; learning about another culture; formal educational programs designed to teach one's own culture or about another culture; concepts and issues central to educational programs involving culture learning. Articles are aimed at the general reader rather than a specialist in any one discipline.

The twelve articles are:
