
INDONESIA APPOINTMENT

The U. S. Department of State has notified Michael E. Foley, a *TESL Reporter* staffer and member of the BYU-HC ESL faculty, that he has been selected to lecture in ESL during the coming academic year. Mr. Foley and his family will assume their new responsibilities this summer in Bandung, Indonesia.

Mr. Foley is not new to international programs, having received his MA in TESL while studying at Honolulu's East-West Center. "We're looking forward to this next school year," he added, "and I hope we continue to receive the *TESL Reporter* in the mail."
